### Contents
This module provides supervision for students working on their Master's thesis. The meetings, which are scheduled according to requirements, are held by the corresponding thesis supervisor. The goal is to provide the students with advice regarding methods and contents of their Master's thesis, which is based upon a relevant scientific-theoretical approach. The counselling helps the students in determining a question, conducting research and dealing with data.

### Intended learning outcomes
The students formulate a precise question for their Master's thesis. They have advanced knowledge of a methodological research approach. The students know the functions of the various procedures of acquiring knowledge. They independently work on the determined question in a comprehensible manner and prove that they are able to conduct good scientific practice.
