Contents		
<p>In this module we study central basics of physical education, sports education and sport didactics. We discuss and evaluate basic movement and game forms in the context of education processes. We reflect basic topics of various movement fields (the principles playing with/without a ball, handball, creating movement, exercising with equipment) in view of movement theories of elementary school didactics. We discuss and evaluate basic trans-situational aspects of fairness, cooperation and team spirit.</p>		
Intended learning outcomes		
<p>The students have essential professional skills in identifying, classifying, understanding and evaluating human movement, movement education and movement learning. They are able to demonstrate basic topics of various movement fields in practice and to evaluate these essential movement forms in view of relevant theories of subject didactics and movement education. They have basic subject-didactic, pedagogical and motor competencies, especially in the fields of aesthetic physical education (gymnastics/dance) and exercising with equipment (gymnastics/acrobatics).</p>
