Contents
Exemplary and close examination of the subject areas of School Pedagogics in view of didactic concepts and theories of education, media-didactic concepts with a special focus on the deployment of digital media in classes, planning and creating learning environments whilst taking into account the subject and the target group as well as the requirements of inclusive education; theory of school as an institute and organisation that has been shaped and has to be shaped; results of empirical school and classroom research; concepts of diagnosing, evaluating and promoting performance; education, schooling, promotion and counselling in school and classes.

Intended learning outcomes
After successfully completing this module, the students are able to characterise and evaluate theories of school and classes as well as concepts and theories of schooling and education in view of different aspects and criteria in a differentiated manner. These theories and concepts are chosen depending on the focal content. They can analyse teaching and learning offers and examples with reference to selected didactic concepts and theories whilst taking into account media as well as information and communication technology and schooling/education situations. Furthermore, they are able to create their own offers based on theories. They are able to outline various processes of norm determination, diagnosis, learning promotion, evaluation and quality management and to evaluate their meaning for the development of school. Furthermore, the students are able to evaluate their own role as a teacher in view of different tasks regarding professional aspects.
