<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
5	(not) successfully completed	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	graduate	May not be combined with o6-SoWiNa-NPIA
<b>Contents</b>		
Sustainability policy, especially climate policy, can only achieve the necessary progress if it takes effect worldwide. Sustainability policy has to be conceived, decided and implemented within the framework of a global governance architecture. The investigation under a political science perspective includes central international organizations such as the United Nations and other international cooperation formats. The master of Social Science Sustainability Studies puts a special focus on the climate policy of the EU, which not only sets the framework for German climate policy, but also plays the role of a global pioneer.		
<b>Intended learning outcomes</b>		
In this module, students gain an overview of the international dimension of dealing with climate change. They acquire the ability to understand and analyze the different starting points, interests and policy approaches of main actors. They become familiar with IR theories such as regime and global governance approaches and learn to apply them to analyze international climate policy.		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)		
S (2) Module taught in: German and/or English and potentially other language		
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

<b>Allocation of places</b>		
5 places. There are no restrictions with regard to available places for students of Social Sustainability Sciences (Master's, 120 ECTS credits). The number specified is the total number of places that will be allocated to students of other degree subjects in the SFB (list of modules) of which this module is listed. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.
