<b>Module coordinator</b>		<b>Module offered by</b>
holder of the Professorship of Social Sustainability Sciences		Institute for Political Science and Sociology
<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
5	(not) successfully completed	--
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	graduate	May not be combined with o6-SoWiNa-SN1A
<b>Contents</b>		
<p>This module provides an introduction and overview of existing social science research approaches in the subject areas of political science and sociology. In addition, interdisciplinary climate and sustainability research has existed for a long time. This is often oriented towards the Sustainable Development Goals formulated by the UN. These describe numerous goals, such as the fight against poverty, gender equality, quality education, health and well-being, which can be profitably illuminated from a sociological perspective. Political science research deals with significantly different policy fields (such as environmental, transport and energy policy) in its orientation. A sociological view of the phenomena includes the description of social inequalities in access to valuable resources as well as social mechanisms for explaining, reproducing and levelling unequal life chances. Last but not least, a sociological perspective offers a critical view of the postulation and relevance of the goals within the framework of power and domination theory approaches.</p>		
<b>Intended learning outcomes</b>		
Students are able to structure the fundamental questions and research fields and relate them to each other. The importance of subject-related and interdisciplinary work is reflected.		
<b>Courses</b> (type, number of weekly contact hours, language — if other than German)		
S (2) Module taught in: German and/or English and potentially other language		
<b>Method of assessment</b> (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
<p>a) presentation (approx. 30 minutes, pass/fail) b) short presentation (approx. 15 minutes, pass/fail) c) essay (approx. 5 pages, pass/fail) d) review (approx. 3 pages, pass/fail) e) log (approx. 3 pages, pass/fail) f) leading a discussion (approx. 45 minutes) on a topic specified by the lecturer as part of a course (pass/fail) g) scientific poster (approx. 50 hours total, pass/fail) h) portfolio (approx. 50 hours total, pass/fail)</p> <p>Assessment offered: In the semester in which the course is offered, no less than once a year Language of assessment: German and/or English and potentially other language</p>		
<b>Allocation of places</b>		
5 places. There are no restrictions with regard to available places for students of Social Sustainability Sciences (Master's, 120 ECTS credits). The number specified is the total number of places that will be allocated to students of other degree subjects in the SFB (list of modules) of which this module is listed. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.
