**Contents**

Building on the basic elements of policy research, a comparative study of the environmental policies of selected states (democracies and autocracies) is carried out. The analysis of the basic principles, instruments and forms of control of environmental policy and their basic institutional structures is included. The results of environmental policy are also recorded. This requires the inclusion of various measurement concepts, the validity of which is critically reflected. Different case designs and comparative evaluation methods can be used in the comparative analysis.

**Intended learning outcomes**

In this module, students gain an overview of different concepts of environmental policy and are able to critically analyse them. In doing so, they learn about the effect of different instruments and forms of governance.

**Courses**

(type, number of weekly contact hours, language — if other than German)

S (2)
Module taught in: German and/or English and potentially other language

**Method of assessment**
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

a) written examination (approx. 90 minutes, numerical grade), b) oral examination of one candidate each (approx. 30 minutes, numerical grade), c) term paper (approx. 25 pages, numerical grade), d) presentation (approx. 30 minutes, numerical grade) and term paper (approx. 25 pages, numerical grade), weighted 1:4, e) portfolio (approx. 50 hours total, numerical grade), f) research report (approx. 15 pages, numerical grade)

Language of assessment: German and/or English and potentially other language

**Allocation of places**

5 places. There are no restrictions with regard to available places for students of Social Sustainability Sciences (Master’s, 120, 45 ECTS credits). The number specified is the total number of places that will be allocated to students of other degree subjects in the SFB (list of modules) of which this module is listed. Should the number of applications exceed the number of available places, places will be allocated according to the number of subject semesters. Among applicants with the same number of subject semesters, places will be allocated by lot. A waiting list will be maintained and places re-allocated by lot as they become available.

**Additional information**

---

**Referred to in LPO I** (examination regulations for teaching-degree programmes)
