Contents		
This course aims to consolidate the students' theological thinking, expression, and writing skills. The contents of all topics in ethics, biblical theology of the New Testament, and religious studies are interrelated and linked.		
Intended learning outcomes		
At the end of the course, students will have developed the knowledge in ethics, biblical studies of the New Testament, and religious studies that is required for teaching at <i>Realschule</i> schools. They will be able to recognise contents in their complex interrelation with all other topics in theology as well as to reproduce them, both orally and in writing. Students will have adopted a supra-individual position on all topics that is based on a sharpened awareness of problems and on reasonable arguments. They will be able to interpret topics in theology in the light of current social problems and discuss potential solutions.
