Communication models, conversation techniques, theory and practice of at least one counseling approach; guidance of students during their work placement in a school that focuses on supporting emotional and social development or possibly in a regular school with pupils with special educational needs in the area of emotional and social development, specific questions during the work placement in a school that focuses on supporting emotional and social development or possibly in a regular school with integrated pupils with special educational needs in the area of emotional and social development.</p>		
<b>Intended learning outcomes</b>		
<p>The students have advanced their professional competence by acquiring profound basic skills and knowledge of counseling in the context of behavioural disorders. They have advanced their methodological and self-competence by testing a counselling method in practice and analysing their own behaviour on the basis of the counselling model. Furthermore, they are skilled in evaluating self- and external perception during counselling. By working in various social forms (partner work, group work, etc.) and reflecting different contents, situations and processes in the group, the students' social competence is promoted.</p>
