### Contents
Phenomena, terminology, criteria and norms, classification, epidemiology, institutions, historical aspects, legal basics, education and education difficulties, principles of didactics and teaching, basic explanatory perspectives, central influencing factors of behavioural disorders (especially aspects of family, school or society), inclusion and exclusion in contexts of emotional and behavioural disorders.

### Intended learning outcomes
The students are able to apply basic knowledge to achieve a differentiated understanding of behavioural disorders (professional competence, selfcompetence). The students are able to conduct independent and extensive research on their own and in groups to advance their basic knowledge (professional competence, social competence, methodological competence). By acquiring differentiated basic knowledge, the students have gained first competencies in dealing with behavioural disorders (self-competence).
