

Module title		Abbreviation
Psychology of emotional and behavioral disorders		o6-V-Psy-VQ-202-m01
Module coordinator		Module offered by
holder of the Chair of Education of behavioral disorder		
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Psychology as a basis for special educational action; introduction to Special Education and especially to Education for People with Emotional and Behavioural Disorders; relevant aspects of psychological subdisciplines: especially psychology of learning, differential and personality psychology, clinical psychology, social psychology, psychological assessment as well as motivation and emotion; in-depth study of selected topics.		
Intended learning outcomes		
The students can apply psychological knowledge to special educational contexts (professional and methodological competence). Furthermore, they have acquired the competence to apply psychological knowledge in social contexts (initiated social competence). They have learned to independently improve their psychological knowledge and are able to utilize it to reflect their own personality and actions (self-competence).
