#### Contents
This module will acquaint students with the principles of general and comparative plant physiology and will provide them with an opportunity to develop the fundamental skills for working in a physiological laboratory. The module will discuss the physiological processes that regulate the internal environment of plants.

#### Intended learning outcomes
Students have developed an understanding of the physiological functions and regulation of organisms. They have acquired fundamental knowledge on planning, setup, interpretation and presentation of scientific results.

#### Courses
(V + Ü (no information on SWS (weekly contact hours) and course language available)

#### Method of assessment
written examination (approx. 45 minutes)

#### Allocation of places
--

#### Additional information
--

#### Referred to in LPO I
(examination regulations for teaching-degree programmes)
--
