Module title: Basics plant Ecophysiology  
Abbreviation: 07-4BFPS4-092-m01

Module coordinator: holder of the Chair of Ecophysiology and Vegetation Ecology
Module offered by: Faculty of Biology

ECTS: 5  
Method of grading: numerical grade  
Only after succ. compl. of module(s): --

Duration: 1 semester  
Module level: undergraduate  
Other prerequisites: --

Contents:
Using the examples of selected systems, this module will introduce students to the theoretical fundamentals of the interaction between plants and their environment and will make students familiar with the molecular biological, chemical analytical as well as ecophysiological methods necessary to investigate this interaction.

Intended learning outcomes:
Students will be able to recognise, describe and evaluate interactions between plants and their environment. They will be able to perform basic experiments to analyse these interactions.

Courses:
V + Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment:
written examination (60 minutes)

Allocation of places:
--

Additional information:
--

Referred to in LPO I (examination regulations for teaching-degree programmes):
--

Module appears in:
Bachelor' degree (1 major) Biology (2007)  
Bachelor' degree (1 major) Mathematics (2007)
