| Contents | | |
| This module will equip students with advanced knowledge on the structure and function of nucleic acids and proteins as well as on the search for and analysis and modelling of plant macromolecules using databases and specific software. | | |
| Intended learning outcomes | | |
| Students have acquired a specialist knowledge of the structure-function relationships of macromolecules and are able to work with relevant databases and software. | | |
| Courses (type, number of weekly contact hours, language – if other than German) | | |
| V + Ü (no information on SWS (weekly contact hours) and course language available) | | |
| Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus) | | |
| computerised practical examination (4 hours) | | |
