Module title | Abbreviation
---|---
Basics of Biology I - Cytology and Anatomy | 07-DH-FWBI01-092-m01

Module coordinator | Module offered by
---|---
head of group Didactics of Biology | Faculty of Biology

ECTS | Method of grading | Only after succ. compl. of module(s)
---|---|---
5 | numerical grade | --

Duration | Module level | Other prerequisites
---|---|---
1 semester | undergraduate | By way of exception, additional prerequisites are listed in the section on assessments.

Contents

A lecture on the biology-specific contents of the curriculum for Hauptschule will equip students with basic knowledge in the areas of cytology, histology, anatomy and physiology. The following topics will be discussed: biological macromolecules, plant and animal cells, distinctive features of plant cells, organelles of the cell and their specific functions, fundamental principles of genetics, organs of the human body and their functions and performance, nervous systems, human sensory organs and how to keep them healthy, human ontogeny, health education, substance abuse prevention, viruses and bacteria as pathogens, fundamental principles of plant physiology (focus: photosynthesis), organs of vascular plants and their variations, tissues of vascular plants and their cellular structures. The exercises on cytology and anatomy will provide students with an insight into the internal anatomy of selected animals and plants. Students will examine plant organs, cutting cross and longitudinal sections. They will work with microscopes and binoculars and will develop experience with typical techniques in biology such as observation and examination. Students will also make drawings of the preparations.

Intended learning outcomes

The cell: the smallest building block of living organisms. Knowledge of organisms as living systems that need control and regulation. Recognising the DNA as the carrier of genetic information. Familiarity with the relationship between the structure and the function of organs. Ability to name the most important internal anatomy of selected animals. Ability to mount organisms and prepare microscopic preparations. Practical skills using microscopes/binoculars, the most important tools for the investigation of fundamental problems in biology. Ability to make scientific drawings.

Courses (type, number of weekly contact hours, language — if other than German)

This module comprises 2 module components. Information on courses will be listed separately for each module component.

- 07-DH-FWBI01-1-092: V (no information on SWS (weekly contact hours) and course language available)
- 07-DH-FWBI01-2-092: Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.

Assessment in module component 07-DH-FWBI01-1-092: Introduction to Biology I (Lecture)

- 3 ECTS, Method of grading: numerical grade
- written examination (60 to 90 minutes)

Assessment in module component 07-DH-FWBI01-2-092: Cytology and Anatomy of Animals and Plants (Practice)

- 2 ECTS, Method of grading: (not) successfully completed
- 10 to 15 drawings
- Other prerequisites: Admission prerequisite to assessment: regular attendance of exercises, seminars and lab courses (weekly courses: a maximum of one incident of unexcused absence and one excused absence for a legitimate reason; fortnightly courses: one incident of unexcused absence) and successful completion of the respective exercises (required percentage as specified at the beginning of the course).
### Allocation of places

- 

### Additional information

- 

### Referred to in LPO I (examination regulations for teaching-degree programmes)

| § 38 (1) 1. Didaktik der Hauptschule Biologie |
| § 38 (1) 1. Didaktik der Mittelschule Biologie |

### Module appears in

- First state examination for the teaching degree Grundschule Didactics in Biology (Primary School) (2009)
- First state examination for the teaching degree Hauptschule Pedagogy of Secondary Education (2009)
- First state examination for the teaching degree Hauptschule Didactics in Biology (Secondary School) (2009)
