Module title: Special Didactics in Biology: Teaching Aids

Abbreviation: 07-GY-FDMED-092-m01

Module coordinator: head of group Didactics of Biology

Module offered by: Faculty of Biology

ECTS: 1

Method of grading: Only after successfully completed module(s)

Duration: 1 semester

Module level: undergraduate

Other prerequisites: Admission prerequisite to assessment: regular attendance of exercises, seminars and lab courses (weekly courses: a maximum of one incident of unexcused absence and one excused absence for a legitimate reason; fortnightly courses: one incident of unexcused absence) and successful completion of the respective exercises (required percentage as specified at the beginning of the course). The preparation of logs (10 to 15 pages) is an admission prerequisite to assessment.

Contents:

Using examples from the classroom, the exercise will acquaint students with specific teaching aids (originals, preparations and media) for use in the biology classroom and will assess these with regard to the media literacy skills to be developed. The seminar will discuss both traditional aids used in the biology classroom (models, blackboard, OHP, transparencies, textbook and worksheets etc.) and modern aids (computer simulations, ppt presentations etc.). After having received a theoretical introduction to teaching aids, students will be arranged into small teams that will deliver lessons or individual phases of lessons on specific topics from the curriculum. They will focus on a teaching aid of their choice which will subsequently be assessed with regard to aspects of media didactics.

Intended learning outcomes:

Knowledge of the fact that the term "teaching aids in the biology classroom" refers to originals, preparations and media. - Familiarity with a biology-specific, didactic definition of the term "media". - Overview of different aspects of biology-specific media (encoding, hardware, software, message, sensory modalities).
