Contents		
<p>The exercise <i>Einheimische Lebensräume im Biologieunterricht (Indigenous Habitats in the Biology Classroom)</i> will provide students with an opportunity to explore the topic "teaching biology in out-of-classroom learning environments" in more detail. The course will focus on the methodological aspect of environmental education. Students will adapt existing teaching units on water, forest, grassland, farmland and/or hedgerow habitats, will deliver the respective units to groups of pupils, preferably during a project day at an environmental education centre, and will subsequently evaluate the sessions. Students will develop an activity and problem-based lesson on a concrete topic related to the respective habitat, a lesson that is tailored to their target group and develops their pupils' affective, methodological and cognitive skills.</p>		
Intended learning outcomes		
<ul style="list-style-type: none"> • Ability to develop activity-based and multisensory lessons in out-of-classroom learning environments that are tailored to the target group as well as ability to adapt and evaluate lessons. • Ability to independently organise and run project days. • Ability to critically reflect on the respective lessons, taking aspects of environmental education into consideration.
