Duration | Module level | Other prerequisites
1 semester | undergraduate | -- |

Contents
This lecture will acquaint teaching degree students with the basic guidelines for teaching topics in biology and will contrast basic rules of rhetoric and communication with biological behaviour. In addition, the lecture will discuss a variety of approaches to explaining personality, character and temperament and will contrast these with established biological models. The lecture will also explain the biological bases of thought and feeling as well as the causes of differences in motivation, in particular with regard to the development of personal skills.

Intended learning outcomes
Students are familiar with the fundamental principles of biological processes and models that different personality assessment models are based on. They are familiar with methodical approaches to conflict management and teamwork. In addition, students have enhanced their teaching skills in the area of biology in particular.

Courses
This module comprises 2 module components. Information on courses will be listed separately for each module component.
- 07-LA-RHET-1-092: V (no information on SWS (weekly contact hours) and course language available)
- 07-LA-RHET-2-092: S (no information on SWS (weekly contact hours) and course language available)

Method of assessment
