**Module title**
Methods and tools for Nature- and Environmental Education 2

**Abbreviation**
07-LLG-M2-151-m01

**Module coordinator**
head of group Didactics of Biology

**Module offered by**
Department of Didactics of Biology

**ECTS**
3

**Method of grading**
(only after success. completion of module(s))

**Duration**
1 semester

**Module level**
undergraduate

**Other prerequisites**
--

**Contents**
Chalk and talk teaching, carousel activities, unguided experimentation. There are many ways to communicate knowledge to groups of pupils. Out-of-classroom learning has been gaining in importance. In interdisciplinary contexts, it is particularly important to draw attention to the fact that looking at a topic from a "different" point of view may facilitate learning. This course will provide students with a practical introduction to knowledge-based and experience-based learning methods. Some of these methods will be adapted to be appropriate for specific topics and will be implemented with groups of pupils. This course will present students with an opportunity to find out what methods they feel comfortable with and whether students like or dislike the respective methods.

**Intended learning outcomes**
Students are familiar with practical methods for teaching groups in an effective and lively way.

**Courses**
(no information on SWS (weekly contact hours) and course language available)

**Method of assessment**
a) presentation (20 to 30 minutes) or b) term paper (7 to 10 pages)

**Allocation of places**
--

**Additional information**
--

**Referred to in LPO I**
(examination regulations for teaching-degree programmes)
