Module title | Topics and Concepts in Life Sciences
--- | ---
Abbreviation | 07-MLS2-122-m01

Module coordinator | Dean of Studies Biologie (Biology)
Module offered by | Faculty of Biology

ECTS | 10
Method of grading | numerical grade
Duration | 1 semester
Module level | graduate
Other prerequisites | --

Contents
A broad variety of topics and concepts from the areas of neuroscience, infection and immunity, integrative biology, and biomedicine including for example: protein characterisation, DNA repair, Drosophila, computational biology, and neurocircuits.

Intended learning outcomes
Students have an overview of the current research topics in the Graduate School of Life Sciences and are able to explain their significance and scientific background.

Courses
V (no information on SWS (weekly contact hours) and course language available)

Method of assessment
a) written examination (usually 30 to 60 minutes, including multiple choice questions) or b) oral examination of one candidate each (usually 30 to 60 minutes) or c) oral examination in groups of up to 3 candidates (usually approx. 30 to 60 minutes)
Language of assessment: English

Allocation of places
--

Additional information
--

Referred to in LPO I (examination regulations for teaching-degree programmes)
