**Module title**
Topics and Concepts in Life Sciences

**Abbreviation**
07-MLS2-122-m01

**Module coordinator**
Dean of Studies Biologie (Biology)

**Module offered by**
Faculty of Biology

**Contents**
A broad variety of topics and concepts from the areas of neuroscience, infection and immunity, integrative biology, and biomedicine including for example: protein characterisation, DNA repair, Drosophila, computational biology, and neurocircuits.

**Intended learning outcomes**
Students have an overview of the current research topics in the Graduate School of Life Sciences and are able to explain their significance and scientific background.

**Courses**
(type, number of weekly contact hours, language — if other than German)
V (no information on SWS (weekly contact hours) and course language available)

**Method of assessment**
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
a) written examination (usually 30 to 60 minutes, including multiple choice questions) or b) oral examination of one candidate each (usually 30 to 60 minutes) or c) oral examination in groups of up to 3 candidates (usually approx. 30 to 60 minutes)
Language of assessment: English
