Module title: Topics and Concepts in Life Sciences
Abbreviation: 07-MLS2B-141-m01

Module coordinator: degree programme coordinator Biologie (Biology)
Module offered by: Faculty of Biology

ECTS: 7
Method of grading: numerical grade
Duration: 1 semester
Module level: graduate
Other prerequisites: --

Contents:
A broad variety of topics and concepts from the areas of neuroscience, infection and immunity, integrative biology, and biomedicine including for example: protein characterisation, DNA repair, Drosophila, computational biology, and neurocircuits.

Intended learning outcomes:
Students have an overview of the current research topics in the Graduate School of Life Sciences and are able to explain their significance and scientific background.

Courses:
(type, number of weekly contact hours, language — if other than German)
V (no information on SWS (weekly contact hours) and course language available)

Method of assessment:
(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
written examination or oral examination of one candidate each or oral examination in groups of up to 3 candidates
Language of assessment: English

Allocation of places:
--

Additional information:
--

Referred to in LPO I (examination regulations for teaching-degree programmes):
--
