### Module title
Neurobiology, Behavior and Animal Ecology (Lecture)

### Abbreviation
07-MS1-102-m01

### Module coordinator
holder of the Chair of Neurobiology and Genetics

### Module offered by
Faculty of Biology

### ECTS
10

### Method of grading
numerical grade

### Only after succ. compl. of module(s)
--

### Duration
1 semester

### Module level
graduate

### Other prerequisites
--

### Contents
This lecture series is a joint activity of the Chairs of Neurobiology, Behavioural Physiology and Animal Ecology. It will provide students with insights into these fields, helping them select their F1 and F2 practical courses and providing them with the fundamental knowledge and skills required for the advanced modules of this focus.

### Intended learning outcomes
Students get to know the advantages of an integrative approach when analysing complex biological systems. They learn to relate and integrate different fields within biology.

### Courses
V (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
Students will be informed about the method, length and scope of the assessment prior to the course. Usually, one of the following options will be chosen: a) written examination (30 to 60 minutes, including multiple choice questions) or b) oral examination of one candidate each (30 to 60 minutes) or c) oral examination in groups of up to 3 candidates (approx. 30 to 60 minutes)

### Allocation of places
--

### Additional information
--

### Referred to in LPO I
(examination regulations for teaching-degree programmes)
