#### Contents
Recent progress in molecular and cellular immunology. Deeper insights into selected immunology chapters, such as autoimmunity and immunomodulation, development of the immune system, immunogenetics, evolution of the immune system, infection immunology, and more.

#### Intended learning outcomes
Students are able to understand current topics in immunology and to discuss these in detail.

#### Courses
- V (1) + S (2)
  - Module taught in: English

#### Method of assessment
- Students will be informed about the method, length and scope of the assessment prior to the course. Usually, one of the following options will be chosen: a) written examination (30 to 60 minutes, including multiple choice questions) or b) log (15 to 30 pages) or c) oral examination of one candidate each (30 to 60 minutes) or d) oral examination in groups of up to 3 candidates (30 to 60 minutes) or e) presentation (20 to 45 minutes)
  - Assessment offered: Summer semester only
  - Language of assessment: German and/or English

#### Allocation of places
--

#### Additional information
--

#### Referred to in LPO I
(examination regulations for teaching-degree programmes)
