### Contents

This course offers an introduction to virology and current research in the field of virology.

### Intended learning outcomes

Students will have gained the ability to understand current issues in virology and to discuss these in depth.

### Courses

(type, number of weekly contact hours, language — if other than German)

V (1) + S (2)

Module taught in: English

### Method of assessment

(type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)

Students will be informed about the method, length and scope of the assessment prior to the course. Usually, one of the following options will be chosen: a) written examination (30 to 60 minutes, including multiple choice questions) or b) oral examination of one candidate each (30 to 60 minutes) or c) oral examination in groups of up to 3 candidates (30 to 60 minutes)

Assessment offered: Summer semester only

Language of assessment: German and/or English

### Allocation of places

--

### Additional information

--

### Referred to in LPO I

(examination regulations for teaching-degree programmes)
