The module consists of the lecture *Zellpathologie* (*Cytopathology*) and the seminar *Zellbiologie-Meilensteine und Perspektiven* (*Milestones and Perspectives of Cell Biology*). The lecture describes pathological states of the cell and unravels their biological causes and consequences, such as infection, apoptosis, senescence, metabolic disorders and cancer. In the seminar *Milestones and Perspectives of Cell Biology*, classic ground-breaking publications in the field of cell biology are discussed from an unusual point of view.

Intended learning outcomes

Students possess a knowledge of the theoretical principles underlying cell pathology and are able to put this into the broader context of cell biology research.
