**Contents**
To support international students on their way toward academic success and to foster the international focus of the Faculty of Biology at the University of Würzburg, we aim to offer more intensive mentoring for first-year students from abroad (in particular from non-EU states) studying biology. For this purpose, we train tutors to help international students with issues regarding scientific contents, to overcome language problems with the help of small-group tutorials and to help encourage the integration of international students in general.

**Intended learning outcomes**
The tutors will acquire general transferable skills including intercultural and international competencies, the ability to communicate complex concepts in a clear and structured way as well as the ability to supervise groups.

**Courses**
