

Module title		Abbreviation
Designing a scientific poster		07-SQA-WP-112-m01
Module coordinator		Module offered by
Coordinator BioCareers		Faculty of Biology
ECTS	Method of grading	Only after succ. compl. of module(s)
3	(not) successfully completed	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
In this module, students will present the results of (their own) research - conducted for their thesis or during lab course projects, for example - in the form of a poster meeting the standards of (international) conferences. Preparation of the poster will be supervised and graded by the respective thesis/project supervisor.		
Intended learning outcomes		
Students will be able to present the results of their work in a condensed yet comprehensible form. They will be able to present key aspects of their work in a clear and appropriate manner, providing all the necessary information to allow both experts in the field and scientists who are not familiar with every detail to understand the matter. Having prepared scientific posters, students will find it easier to structure scientific manuscripts.		
Courses (type, number of weekly contact hours, language — if other than German)		
Ü (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)		
completed poster meeting the standards of national and international conferences Language of assessment: English
