| holder of the Chair of Plant Physiology and Biophysics   |                          | Faculty of Biology                          |
| <b>ECTS</b>  | <b>Method of grading</b> | <b>Only after succ. compl. of module(s)</b> |
| 3  | numerical grade          | --  |
| <b>Duration</b>  | <b>Module level</b>      | <b>Other prerequisites</b>                  |
| 1 semester   | undergraduate            | --  |
| <b>Contents</b>  |                          |   |
| Applications of green biotechnology; biological background, economic interests, ecological risks, social acceptability.  |                          |   |
| <b>Intended learning outcomes</b>  |                          |   |
| Students are able to discuss/evaluate society's views of biotechnology. They know how to conduct a literature search and are able to critically review scientific publications as well as issues raised by society. Students have enhanced their oral and written presentation skills and are able to use these to present the data they have collected. |                          |   |
| <b>Courses</b> (type, number of weekly contact hours, language – if other than German)   |                          |   |
| V + S (no information on SWS (weekly contact hours) and course language available)   |                          |   |
| <b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)   |                          |   |
| term paper or preparing educational materials (5 to 10 pages) and presentation (approx. 20 to 30 minutes), weighted 1:1  |                          |   |
