**Contents**

Working as tutors, students will mentor other students during the modules Allgemeine Biologie (General Biology) I through III in particular. Tutors will help with organisational and personal matters and will help students improve upon their understanding of material, consolidate their knowledge and prepare for assessments. Together with students, they will develop strategies to detect and fill gaps in their knowledge. Tutors will support other students on their way towards academic success.

**Intended learning outcomes**

The tutors are able to communicate complex concepts in a clear and structured way. They have gained experience supervising a group and helping students with personal matters. The tutors have thus enhanced their own interpersonal skills and know how to share their expertise in exploring complex topics. In addition, the tutors have learned to plan and organise key elements of their own university education and the university education of the students they mentor.

**Courses**

T (no information on SWS (weekly contact hours) and course language available)

**Method of assessment**

proof of tutoring activities and report (approx. 2 to 3 pages)

**Allocation of places**

--

**Additional information**

--

**Referred to in LPO I**

(examination regulations for teaching-degree programmes)
