

Module title		Abbreviation
Inorganic Chemistry 2 (lab)		o8-ACP2-172-m01
Module coordinator		Module offered by
holder of the Chair of Anorganic Chemistry		Institute of Inorganic Chemistry
ECTS	Method of grading	Only after succ. compl. of module(s)
5	(not) successfully completed	(o8-OCP1 or o8-OCP1-BC) and o8-AS1
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
<p>The module provides the opportunity to plan and carry out complex syntheses after an individual research. Focuses are the handling of organometallic compounds, their synthesis and the work in inert atmospheres. Spectroscopical methods are used for the precise determination of the products.</p>		
Intended learning outcomes		
<p>The student is able to experimentally solve complex issues after an individual research. He/She can describe the technical backgrounds and explain them written and verbal using technical language. He/She can independently plan and carry out the synthesis of a chemical compound. Therefore he/she can apply advanced laboratory techniques.</p>		
Courses (type, number of weekly contact hours, language – if other than German)		
P (12)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
<p>Vortestate/Nachtestate (pre and post-experiment examination talks approx. 15 minutes each, log approx. 5 to 10 pages each) and assessment of practical performance (2 to 4 random examinations) Language of assessment: German and/or English</p>		
Allocation of places		
--		
Additional information		
--		
Referred to in LPO I (examination regulations for teaching-degree programmes)		
--		
Module appears in		
Bachelor' degree (1 major) Chemistry (2017)
