

<b>Module title</b>		<b>Abbreviation</b>
Master Thesis		o8-LMC-MA-122-mo1
<b>Module coordinator</b>		<b>Module offered by</b>
holder of the Chair of Food Chemistry		Institute of Pharmacy and Food Chemistry
<b>ECTS</b>	<b>Method of grading</b>	<b>Only after succ. compl. of module(s)</b>
30	numerical grade	o8-LMC-LMCF and, where applicable, specific modules/module components as specified by supervisor (cf. Section 15 Subsection 2 FSB (subject-specific provisions)).
<b>Duration</b>	<b>Module level</b>	<b>Other prerequisites</b>
1 semester	graduate	--
<b>Contents</b>		
Students search for literature on a problem in food chemistry, select appropriate methods for solution of that problem and use those methods in the laboratory. They prepare a written account of their work and deliver an academic presentation on their findings.		
<b>Intended learning outcomes</b>		
Students independently investigate a problem in food chemistry.		
<b>Courses</b> (type, number of weekly contact hours, language – if other than German)		
C (no information on SWS (weekly contact hours) and course language available)		
<b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
written thesis (approx. 40 pages) and presentation (poster or talk, approx. 20 minutes), weighted 4:1 Language of assessment: German or English		
<b>Allocation of places</b>
