

Module title		Abbreviation
Organic Chemistry o (Nomenclature and Stereochemistry) for Food Chemistry Students		o8-LMC-OC0-092-m01
Module coordinator		Module offered by
holder of the Chair of Medicinal and Pharmaceutical Chemistry		Institute of Pharmacy and Food Chemistry
ECTS	Method of grading	Only after succ. compl. of module(s)
5	numerical grade	o8-LMC-AC2 and o8-LMC-AC3
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Stereochemistry and nomenclature of the most important bonding classes , in particular that of naturally occurring substances.		
Intended learning outcomes		
Students have learned the IUPAC rules for naming organic compounds. They have become familiar with the trivial names of compounds and know how to translate the name of a compound into its structural formula. They grasp key concepts and the significance of stereochemistry and have learned rules for naming stereochemical compounds.		
Courses (type, number of weekly contact hours, language – if other than German)		
S + Ü + S (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
written examination (approx. 60 minutes)		
Allocation of places
