Contents		
This module comprises a lecture and a seminar. It provides a detailed and in-depth exploration of the current state of research on the stability of genomes in dependence of certain structural and epigenetic factors.		
Intended learning outcomes		
Students have become familiar with the topics discussed in the module and are able to transfer what they have learned to new problems. They are able to situate new research findings within the context of existing knowledge as well as to determine the significance of those findings.		
Courses (type, number of weekly contact hours, language – if other than German)		
S + S (no information on SWS (weekly contact hours) and course language available)
