Contents		
The module imparts detailed and in-depth the current state of science in the field of research on the stability of genomes in dependence of certain structural and epigenetic factors.		
Intended learning outcomes		
After participating in the module events, the student is familiar with the course contents and is able to transfer them to new scientific problems. He/She is able to classify new research results in the context of recent findings and to assess their significance.		
Courses (type, number of weekly contact hours, language – if other than German)		
V (1) + S (1) Module taught in: German or English		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)
