Contents		
<p>This module comprises a lecture and a seminar. It provides a detailed and in-depth exploration of the current state of research on RNA-protein complexes, their structures and functions as well as the theoretical principles of cutting-edge RNA-based research methods.</p>		
Intended learning outcomes		
<p>Students have become familiar with the topics discussed in the module and are able to transfer what they have learned to new problems. They are able to situate new research findings within the context of existing knowledge as well as to determine the significance of those findings.</p>		
Courses (type, number of weekly contact hours, language – if other than German)		
<p>V (1) + S (1) Module taught in: German or English</p>
