### Contents
This module gives students the opportunity to get involved in the work of one of the research groups based at the Institute of Organic Chemistry and learn some advanced synthesis and analytical methods.

### Intended learning outcomes
Students are able to describe and use some of the synthesis and analytical methods typically used by the research group as well as to describe theoretical aspects.

### Courses
(P no information on SWS (weekly contact hours) and course language available)

### Method of assessment
(talk (approx. 15 minutes) and log (approx. 15 to 20 pages)
Language of assessment: German or English

### Allocation of places
--

### Additional information
--

### Referred to in LPO I (examination regulations for teaching-degree programmes)
--

### Module appears in
Master’s degree (1 major) Chemistry (2013)
Master’s degree (1 major) Chemistry (2014)
