

| Module title   |                   | Abbreviation                         |
|--|-------------------|--------------------------------------|
| Modern Aspects of Natural Product Chemistry and Biological Chemistry   |                   | o8-OCM-NAT-102-m01                   |
| Module coordinator   |                   | Module offered by                    |
| lecturer of the seminar  |                   | Institute of Organic Chemistry       |
| ECTS   | Method of grading | Only after succ. compl. of module(s) |
| 5  | numerical grade   | --                                   |
| Duration   | Module level      | Other prerequisites                  |
| 1 semester   | graduate          | --                                   |
| Contents   |                   |                                      |
| This module discusses advanced topics in natural product chemistry and biological chemistry.   |                   |                                      |
| Intended learning outcomes   |                   |                                      |
| Students are able to discuss advanced topics in natural product chemistry and biological chemistry.  |                   |                                      |
| Courses (type, number of weekly contact hours, language — if other than German)  |                   |                                      |
| S (no information on SWS (weekly contact hours) and course language available)   |                   |                                      |
| Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)  |                   |                                      |
| a) 1 to 3 written examinations (60 or 90 minutes) or b) oral examination of one candidate each (20 minutes) or c) oral examination in groups (groups of 2, 30 minutes). Should there be the option to choose between several methods of assessment, the module coordinator will choose the method to be used for the module component in the current semester at the beginning of the course.<br>Language of assessment: German or English |                   |                                      |
| Allocation of places   |                   |                                      |
| Chemistry Master's: no restrictions. Biochemistry Master's: 20 places. Places will be allocated by lot.  |                   |                                      |
| Additional information   |                   |                                      |
| --   |                   |                                      |
| Workload   |                   |                                      |
| --   |                   |                                      |
| Teaching cycle   |                   |                                      |
| --   |                   |                                      |
| Referred to in LPO I (examination regulations for teaching-degree programmes)  |                   |                                      |
