<b>Contents</b>		
Three selected research-based courses exploring advanced topics in supramolecular chemistry.		
<b>Intended learning outcomes</b>		
Students are able to explain and analyse selected research-oriented topics in supramolecular chemistry. They are able to situate the topics covered in different courses within a broader context.		
<b>Courses</b> (type, number of weekly contact hours, language – if other than German)		
S + S + S (no information on SWS (weekly contact hours) and course language available)		
<b>Method of assessment</b> (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
oral examination of one candidate each (approx. 45 minutes) Language of assessment: German, English
