

Module description

Module title					Abbreviation	
Bioorganic Chemistry 08-SCM3-102-m01						
Module coordinator				Module offered by		
lecture Chemis		ture "Bioorganische Cher	mie" (Bioorganic	Institute of Organic Chemistry		
ECTS Method of grading		od of grading	Only after succ. compl. of module(s)			
5	nume	rical grade				
Duration		Module level	Other prerequisites	rerequisites		
1 semester		graduate				
Contents						
This module discusses topics at the interface of organic chemistry, biology and medicine. It focuses on molecular interactions and recognition, molecular diversity, active agent development, new aspects of DNA, RNA, proteins and carbohydrates.						
Intended learning outcomes						
Students are able to describe molecular interactions and detection mechanisms of bioorganic chemistry. They can explain the molecular diversity of biological systems. They can characterise the fabrication of agents. They can describe modern aspects of DNA, RNA, proteins and carbohydrates.						
Courses (type, number of weekly contact hours, language — if other than German)						
S (no information on SWS (weekly contact hours) and course language available)						
Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether						
module is creditable for bonus)						
a) 1 to 3 written examinations (60 or 90 minutes) or b) oral examination of one candidate each (20 minutes) or c) oral examination in groups (groups of 2, 30 minutes). Should there be the option to choose between several methods of assessment, the module coordinator will choose the method to be used for the module component in the current semester at the beginning of the course. Language of assessment: German or English						
Allocation of places						
Additional information						
Workload						
Teaching cycle						
Referred to in LPO I (examination regulations for teaching-degree programmes)						
Module appears in						
Master's degree (1 major) Biochemistry (2012)						
Master's degree (1 major) Chemistry (2013)						
Master	Master's degree (1 major) Chemistry (2010)					

Master's degree (1 major) FOKUS Pharmacy (2012)
