Contents		
The module covers issues of "General Geography" in terms of European subspaces or subspaces outside of Europe. This can be individual states as well as distinctive subspaces in Europe or outside of Europe due to their lay (e.g. Northern Europe, Alpine countries or North America, US) or due to common features of distinctive states/regions (e.g. European Union or Arabian Peninsula and New Zealand).		
Intended learning outcomes		
Students achieve the following skills: Students will apply general-geographical skills to regional-related issues, particularly the partial steps: 1. Differentiation and characterisation of a region, 2. Working out of specific issues and spatial interactions as well as 3. Synthesis and demonstration of perspectives/problem solutions with thematic emphasis.
