**Duration**
2 semester

**Module level**
graduate

**Other prerequisites**
--

### Contents
Introduction to the basics of "Communication" and "University Teaching". Consolidation of scientific work principles (scientific writing, presentations). Tutorials and introduction to the role as a tutor, trial as tutor during acting as a tutor for certain bachelor courses of the Institute of Geography.

### Intended learning outcomes
Students dispose over fundamental knowledge concerning university teaching and advanced knowledge of the scientific work. Students consolidate their self and social competencies on the basis of already acquired knowledge and skills concerning the visualisation of contents as well as course and guidance of group discussions. By providing Bachelor students with their expertise and methodological knowledge as well as their experiences as Master students, they support the Bachelor students' learning processes as well as reflection of the group dynamics during the tutorial. During the individual design of role as tutor as well as due to constant feedback through students, the own professionality grows.

### Courses
(no information on SWS (weekly contact hours) and course language available)

<table>
