

Module title		Abbreviation
Master Thesis and Oral Presentation Final Colloquium by Students of Geography		09-MAAK-102-m01
Module coordinator		Module offered by
chairperson of examination committee Angewandte Physikalische Geographie (Applied Physical Geography)		Institute of Geography and Geology
ECTS	Method of grading	Only after succ. compl. of module(s)
30	numerical grade	--
Duration	Module level	Other prerequisites
1 semester	graduate	--
Contents		
Applying adequate techniques and adhering to the principles of good scientific practice, students address a current scientific question. The dissertation is documented in a master's thesis and defended in a colloquium.		
Intended learning outcomes		
Students are qualified to scientifically work on a topic on their own. They are competent to discuss the current research in the field. They are competent to work according to good practice and to document, interpret and to discuss their results. They are competent to discuss and to defend their data in the scientific community. Students are able to defend and discuss their work in front of a specialist audience and thus, possess the respective competence to use their technical knowledge in a topic-related and relevant area.
