

Module title		Abbreviation
Practical Course in the Application of Informatics Systems from a Didactical Point of View		10-I-DPAI-092-m01
Module coordinator		Module offered by
Dean of Studies Informatik (Computer Science)		Institute of Computer Science
ECTS	Method of grading	Only after succ. compl. of module(s)
2	(not) successfully completed	--
Duration	Module level	Other prerequisites
1 semester	undergraduate	--
Contents		
Using the example of computer science systems, the module teaches students practical skills for use in schools and, more specifically, in computer science classes. The module demonstrates and discusses possibilities for a practical application in the classroom.		
Intended learning outcomes		
The students possess practical skills in working with selected computer science systems and are able to apply these skills in the classroom.		
Courses (type, number of weekly contact hours, language – if other than German)		
P (no information on SWS (weekly contact hours) and course language available)		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
completion of project assignments, presentation (type and expenditure of time to be specified by the lecturer at the beginning of the course)		
Allocation of places
