Module title | Practical Course in Hardware
---|---
Abbreviation | 10-I-HWP-102-m01

Module coordinator | Dean of Studies Informatik (Computer Science)
Module offered by | Institute of Computer Science

ECTS | 10
Method of grading | Only after succ. compl. of module(s)
| (not) successfully completed
Duration | 1 semester
Module level | undergraduate
Other prerequisites | --

Contents
Practical experiments on hardware aspects, for example in communication technology, robots or the structure of a complete microprocessor.

Intended learning outcomes
The students are able to independently review, prepare and perform experiments with the help of experiment descriptions, to independently search for additional information as well as to document and evaluate experiment results.

Courses (type, number of weekly contact hours, language — if other than German)
P (no information on SWS (weekly contact hours) and course language available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
completion of project assignments, presentation (type and expenditure of time to be specified by the lecturer at the beginning of the course)

Allocation of places
--

Additional information
--

Referred to in LPO I (examination regulations for teaching-degree programmes)
--

Module appears in
Bachelor' degree (1 major) Computer Science (2010)
