### Contents
- Researching and writing on a defined problem in aerospace information technology within a given time frame and adhering to the principles of good scientific practice.

### Intended learning outcomes
- The students are able to research and write on a defined problem in aerospace information technology, adhering to the principles of good scientific practice.

### Courses
- C (no information on SWS (weekly contact hours) and course language available)

### Method of assessment
- written thesis (approx. 30 to 60 pages)
- Language of assessment: German, English

### Allocation of places
- --

### Additional information
- --

### Referred to in LPO I
- (examination regulations for teaching-degree programmes)

### Module appears in
- Bachelor’ degree (1 major) Aerospace Computer Science (2014)
