Computability Theory and Mathematical Logic

Module title

Abbreviation

10-I=BL-102-m01

Module coordinator

holder of the Chair of Computer Science IV

Module offered by

Institute of Computer Science

ECTS

8

Method of grading

numerical grade

Only after succ. compl. of module(s)

Duration

1 semester

Module level

graduate

Other prerequisites

Where applicable, prerequisites as specified by the lecturer at the beginning of the course (e.g. completion of exercises).

Contents

Gödel numbering, decidable and countable sets, halting problem, m-reducibility and completeness, create and productive sets, relative computability, Turing reduction, countable degrees, theorem by Friedberg and Muchnik, arithmetic hierarchy, propositional logic, first-order predicate logic, proof and deduction, Gödel's completeness theorem, Tarski theorem, Gödel's incompleteness theorem, undecidability and nonaxiomatisability of elemental arithmetic.

Intended learning outcomes

The students possess a fundamental and applicable knowledge in the areas of Gödel numbering, decidable and countable sets, halting problem, m-reducibility and completeness, creative and productive sets, relative computability, Turing reducibility, countable degrees, theorem by Friedberg and Muchnik, arithmetic hierarchy, propositional logic, first-order predicate logic, proof and deduction, Gödel's completeness theorem, Tarski theorem, Gödel's incompleteness theorem, undecidability and nonaxiomatisability of elemental arithmetic.

Courses

V + Ü (no information on SWS (weekly contact hours) and course language available)

Method of assessment

written examination (approx. 80 to 90 minutes). If announced by the lecturer by four weeks prior to the examination date, the written examination can be replaced by an oral examination of one candidate each or an oral examination in groups. A 80 to 90 minute written examination is equivalent to a 20 minute (approx.) oral examination of one candidate each, a 30 minute (approx.) oral examination in groups of 2 and a 40 minute (approx.) oral examination in groups of 3.

Language of assessment: German, English if agreed upon with the examiner

Allocation of places

--

Additional information

--

Referred to in LPO I (examination regulations for teaching-degree programmes)

--
