

Module description

Module title					Abbreviation
CanSat Design Lab					10-l=CDW-182-m01
Module coordinator				Module offered by	
holder of the Chair of Computer Science VIII			e VIII	Institute of Computer Science	
ECTS	Method of grading Only after suc		Only after succ. con	c. compl. of module(s)	
10	numerical grade				
Duration Module lev		Module level	Other prerequisites		
1 semester		graduate			
Contents					
ring, aerospace technology, physics, mathematics. A satellite project is an interdisciplinary project that requires knowledge and skills in this as well as in numerous other fields. CanSat is thus an ideal platform to combine all available skills in a single project. It covers the design and development of the space segment control software and the ground segment control software: telemetry and telecommanding in wireless communication: space segment - ground segment, electrical subsystem (energy, batteries), mechanical construction.					
Intended learning outcomes					
CanSat "satellite" includes a real-time operating system (provided by us), commanding (immediate and time-tagged commands), telemetry (real time and history data), attitude control, power control, payload control, image processing and radio links communication. The ground segment ought to be able to generate and send telecommands and to get and (graphically) display the telemetry. Courses (type, number of weekly contact hours, language — if other than German) R (8)					
Module taught in: English Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether					
module is creditable for bonus)					
practical project (development, construction and presentation of a "can sized satellite", project documentation (approx. 20 pages) with presentation (30 to 45 minutes) and subsequent discussion on the topic) Language of assessment: English					
Allocation of places					
<u></u>					
Additional information					
Workload					
300 h					
Teaching cycle					
Referred to in LPO I (examination regulations for teaching-degree programmes)					
Module appears in					

Master's degree (1 major) Satellite Technology (2018)
