Module title
Algebra, Geometry and Number Theory

Abbreviation
10-M-AGZ-072-m01

Module coordinator
Dean of Studies Mathematik (Mathematics)

Module offered by
Institute of Mathematics

ECTS
22

Method of grading
Numerical grade

Duration
3 semester

Module level
Undergraduate

Other prerequisites
By way of exception, additional prerequisites are listed in the section on assessments.

Contents
Introduction to algebra, number theory and geometry: basic algebraic structures (groups, rings, fields); arithmetic properties of integers and rational numbers (as well as algebraic extensions) relating to their algebraic structures (residue class rings and finite fields) and their geometry (quadratic forms); axiomatic introduction of projective spaces, coordinates, fundamental theorems, relations to linear algebra and algebra, curves and hypersurfaces in Euclidean spaces, curvature.

Intended learning outcomes
The student is acquainted with the fundamental concepts and methods in algebra, geometry and number theory. He/She is able to relate these concepts with one another, and realises the advantages of thinking across the borders of different branches in mathematics.

Courses (type, number of weekly contact hours, language — if other than German)
This module has 4 components; information on courses listed separately for each component.

- 10-M-AGZ-1-072: V + Ü (no information on language and number of weekly contact hours available)
- 10-M-AGZ-2-072: V + Ü + V + Ü (no information on language and number of weekly contact hours available)
- 10-M-AGZ-3-072: V + Ü (no information on language and number of weekly contact hours available)
- 10-M-AGZ-P-072: M (no information on language and number of weekly contact hours available)

Method of assessment (type, scope, language — if other than German, examination offered — if not every semester, information on whether module is creditable for bonus)
This module has the following 4 assessment components. Unless stated otherwise, students must pass all of these assessment components to pass the module as a whole.

Assessment in module component 10-M-AGZ-1-072: Einführung in die Algebra (Introduction to Algebra)
- 7 ECTS credits, pass / fail
- a) written examination (approx. 90 minutes, usually chosen) or b) oral examination of one candidate each (approx. 20 minutes) or c) oral examination in groups of 2 candidates (approx. 30 minutes)
- Language of assessment: German; English if agreed upon with examiner(s)
- Additional prerequisites: Module 10-M-LNA recommended.

Assessment in module component 10-M-AGZ-2-072: Einführung in die Geometrie (Introduction to Geometry)
- 8 ECTS credits, pass / fail
- a) written examination (approx. 90 minutes, usually chosen) or b) oral examination of one candidate each (approx. 20 minutes) or c) oral examination in groups of 2 candidates (approx. 30 minutes)
- Language of assessment: German; English if agreed upon with examiner(s)
- Additional prerequisites: Module 10-M-LNA recommended.

Assessment in module component 10-M-AGZ-3-072: Elementare Zahlentheorie (Elementary Number Theory)
- 5 ECTS credits, pass / fail
- a) written examination (approx. 90 minutes, usually chosen) or b) oral examination of one candidate each (approx. 20 minutes) or c) oral examination in groups of 2 candidates (approx. 30 minutes)
- Language of assessment: German; English if agreed upon with examiner(s)
- Additional prerequisites: Module 10-M-LNA recommended.

Assessment in module component 10-M-AGZ-P-072: Prüfung Algebra, Geometrie und Zahlentheorie (Assessment Algebra, Geometry and Number Theory)
- 2 ECTS credits, numerical grading
• oral examination of one candidate each (approx. 30 minutes)
• Language of assessment: German; English if agreed upon with examiner(s)
• Only after successful completion of module components: Two out of the following three module components: 10-M-AGZ-1, 10-M-AGZ-2, 10-M-AGZ-3.
• Additional prerequisites: Module 10-M-LNA recommended.

Allocation of places

Additional information

Referred to in LPO I (examination regulations for teaching-degree programmes)

Module appears in
Bachelor’s degree (1 major) Mathematics (2007)
