## Duration

1 semester

## Module level

undergraduate

## Other prerequisites

Registration for assessment: as specified.

## Contents

Independently researching and writing on a (potentially interdisciplinary) topic in mathematics, economics or computer science selected in consultation with the supervisor.

## Intended learning outcomes

The student is able to work independently on a given, possibly interdisciplinary topic in mathematics, economics or computer science and apply the skills and methods obtained during the study programme. He/She can write down the result of his/her work in a suitable form.

## Courses

No courses assigned

## Method of assessment

**written thesis**

Language of assessment: German, English if agreed upon with the examiner

## Allocation of places

--

## Additional information

--

## Referred to in LPO I

(examination regulations for teaching-degree programmes)
