

Module title		Abbreviation
Elementary Mathematics 2 (German Grundschule/Hauptschule/Realschule)		10-M-EL2-092-m01
Module coordinator		Module offered by
Dean of Studies Mathematik (Mathematics)		Institute of Mathematics
ECTS	Method of grading	Only after succ. compl. of module(s)
11	numerical grade	--
Duration	Module level	Other prerequisites
2 semester	undergraduate	--
Contents		
Introduction to fundamental and advanced techniques in mathematics. Basic topics in elementary and Euclidean geometry as well as stochastics.		
Intended learning outcomes		
The student knows the basic ways of thinking and working in mathematics, as well as the fundamental mathematical proof methods. He/She is able to apply these skills to basic problems in the fields of Euclidean geometry and elementary stochastics.		
Courses (type, number of weekly contact hours, language – if other than German)		
This module comprises 3 module components. Information on courses will be listed separately for each module component. <ul style="list-style-type: none"> • 10-M-EL2-P-092: M (no information on SWS (weekly contact hours) and course language available) • 10-M-EL2-1-092: V + Ü (no information on SWS (weekly contact hours) and course language available) • 10-M-EL2-2-092: V + Ü (no information on SWS (weekly contact hours) and course language available) 		
Method of assessment (type, scope, language – if other than German, examination offered – if not every semester, information on whether module is creditable for bonus)		
Assessment in this module comprises the assessments in the individual module components as specified below. Unless stated otherwise, successful completion of the module will require successful completion of all individual assessments.		
Assessment in module component 10-M-EL2-P-092: Elementary Mathematics 2 (German Grundschule/Hauptschule/Realschule) <ul style="list-style-type: none"> • 1 ECTS, Method of grading: numerical grade • written examination (approx. 90 minutes); if announced by the lecturer, the written examination can be replaced by an oral examination of one candidate each (approx. 20 minutes) or an oral examination in groups (groups of 2: approx. 30 minutes, groups of 3: approx. 45 minutes) or by a written and/or multi-media portfolio (as announced) • Only after successful completion of module components: Successful completion of the two module components 10-M-EL2-1 and 10-M-EL2-2 is a prerequisite for participation in module component 10-M-EL2-P. 		
Assessment in module component 10-M-EL2-1-092: Elementary Mathematics 2: Geometry (German Grundschule/Hauptschule/Realschule) Elementary Mathematics 2: Geometry (German Grundschule/Hauptschule/Realschule) <ul style="list-style-type: none"> • 6 ECTS, Method of grading: (not) successfully completed • exercises: At the beginning of the course, the lecturer will specify the type and scope of exercises to be successfully completed over the course of the semester for the module component to be considered successfully completed. 		
Assessment in module component 10-M-EL2-2-092: Elementary Mathematics 2: Stochastics (German Grundschule/Hauptschule/Realschule) Elementary Mathematics 2: Stochastics (German Grundschule/Hauptschule/Realschule) <ul style="list-style-type: none"> • 4 ECTS, Method of grading: (not) successfully completed • exercises: At the beginning of the course, the lecturer will specify the type and scope of exercises to be successfully completed over the course of the semester for the module component to be considered successfully completed.
